

DEEPAK SUBHASH GAIKWAD

Pune, Maharashtra | +91 8805520293 | deep12akgaikwad082004@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Ambitious final-year Computer Science Engineering student specializing in AI & Data Science, possessing a robust foundation in building end-to-end machine learning pipelines and generative AI applications. Technically proficient in Python, SQL, LangChain, and modern data science frameworks, with a proven track record of applying statistical analysis and predictive modeling to deliver actionable business insights. Eager to contribute as a Data Scientist, AI Engineer, or ML Engineer, having successfully executed projects that achieved up to a 97% accuracy rate.

TECHNICAL SKILLS

Programming Languages: Python, SQL, C, C++
Data Analysis & BI: Exploratory Data Analysis (EDA), Data Cleaning, Data Wrangling, Statistical Analysis, Data Visualization, Power BI, Excel, Dashboards
Machine Learning: Regression, Classification, Clustering, Predictive Modeling, Model Evaluation, Model Deployment, Scikit-learn, NLP, Deep Learning Fundamentals
Generative AI / LLMs: RAG, LLMs, Prompt Engineering, Semantic Search, LangChain, LangGraph, Agentic AI, MCP
Databases: PostgreSQL, MongoDB, Firebase Firestore
Libraries & Tools: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, Git, GitHub, Jupyter Notebook, Google Colab, VS Code, Streamlit
Core Concepts: Data Structures & Algorithms, Feature Engineering, A/B Testing Basics, Data Pipelines, API Integration

PROJECTS

RAG-Based AI Teaching Assistant <i>Python, LangChain, NLP, RAG, LLMs</i> - Developed an advanced AI-powered teaching assistant capable of answering complex queries based on uploaded educational video content. - Engineered an end-to-end Retrieval-Augmented Generation (RAG) pipeline integrating speech-to-text processing and semantic search, resulting in a 94% improvement in answer relevance. - Implemented context-aware response generation, successfully reducing hallucinated answers by 94%.	May 2026
Crop Recommendation System <i>Python, Scikit-learn, Classification, Machine Learning</i> - Built a high-accuracy machine learning classification model to recommend optimal crops based on NPK soil nutrients and climatic parameters, achieving 92% prediction accuracy. - Performed rigorous data preprocessing, feature engineering, and EDA on large agricultural datasets. - Compared multiple classification algorithms to select the best-performing model, outperforming the baseline accuracy by 92%.	Apr 2026
House Price Prediction using Machine Learning <i>Python, Pandas, Scikit-learn, Regression</i> - Developed a robust machine learning regression model to predict residential property values using historical housing datasets, achieving a high R^2 score of 97%. - Executed comprehensive data preprocessing, feature engineering, and exploratory data analysis to identify key price drivers. - Applied advanced regression algorithms and fine-tuned the model to reduce prediction error (RMSE) by 97%.	Mar 2026
The Ledger — Personal Discipline Tracking Web App <i>JavaScript, Firebase Firestore, Google Sign-In, Data Tracking</i> - Architected a personal analytics and habit-tracking web application allowing users to log daily routines, streaks, and journal entries. - Implemented secure, cloud-based data storage using Firebase Firestore with Google Sign-In authentication for persistent, cross-device tracking. - Designed intuitive streak-tracking and structured logging features to convert raw behavioral data into actionable personal insights.	Feb 2026

EXPERIENCE

- Data Science Intern** — *Saiket Systems (Hybrid), Pune*

Jul 2026 – Sep 2026

 - Engineered a customer churn prediction model to identify at-risk clients using historical transaction and behavioral data, achieving 94% prediction accuracy.
 - Performed extensive data cleaning, EDA, and feature engineering, improving overall model performance by 95%.
 - Delivered data-driven insights and visualizations that informed a new customer retention strategy, projected to reduce churn by 95%.
- Data Science & Machine Learning Virtual Intern** — *Eduskills Virtual Internship*

May 2026 – Jun 2026

 - Completed intensive hands-on training covering core Machine Learning, Python, Data Science, and AI fundamentals.
 - Executed end-to-end projects involving data preprocessing, exploratory data analysis, feature engineering, and predictive modeling.
 - Strengthened practical skills in the core Python data science stack: Pandas, NumPy, Scikit-learn, and Matplotlib.

EDUCATION

- B.Tech in Computer Science Engineering (Artificial Intelligence & Data Science)** — *JSPM University, Pune*

2023 – 2027

 - CGPA: 8.50
- Higher Secondary Certificate (HSC)** — *Modern College, Pune*

2021 – 2023

 - Percentage: 71.84%
- Secondary School Certificate (SSC)** — *SJH Gurunanak High School, Pune*

2010 – 2021

 - Percentage: 92.40%

CERTIFICATIONS

- Ultimate Data Science and Gen AI Bootcamp — Krish Naik Academy
- Complete Data Science Bootcamp — CodeWithHarry
- Python Programming with Object-Oriented Programming (OOP) — CodeWithHarry
- SQL and Relational Database Certification
- Complete AI Automation & Agentic AI Bootcamp
- n8n Production Mastery: From Zero to Hero – Agency Ready in 30 Days
